

Geography

Intent

At Nevill Road Infant School, we value geography as a creative and enjoyable part of our broad and balanced school curriculum. We believe that it should be fully inclusive to every child, offering opportunities for challenge and perseverance. Our aim is to motivate the children to explore the wider world as well as their own local community interests. The children will be provided with many opportunities to enjoy learning about our wonderful world and how to look after it.

Implementation

At Nevill Road Infant School, we aim to do M-O-R-E:

- **MOTIVATE** by exposing our children to a wide range of maps and cultures, building in them an enthusiasm to enquire.
- **OPEN MINDS** by teaching within the context of our vibrant, bold topics throughout the school, our children will be immersed in a progressive and stimulating geography curriculum. This will be centred on the knowledge and skills embedded within the National Curriculum
- **REACH further** by introducing our children to a wealth of locations, places, people and communities, children will have lots of opportunities to ask questions and develop their skills
- **EQUIP** our children with the knowledge, skills and resources to allow them to challenge themselves to think analytically.

Impact

Our pupils will reach the end of their journey at Nevill Road Infant School with a firmly-established love of geography. They will have amassed an impressive collection of cross-curricular, creative outcomes and an awareness and knowledge of a variety of geographical skills. They will be confident in evaluating and improving their work and unafraid of trying out new and bold ideas. Our school displays and children's work books will reflect these creative outcomes and also, the children's sense of pride in their local, national and global community across the school.
